

Hep_vO Waterless Trap

Hep_vO (SBV/U) Outlet Adapter for direct glued connection to ABS pipe.

New Features & Benefits of Hep_vO:

- Teflon tape/sealants are no longer required to make a successful outlet connection with Schedule 40 ABS pipe
- Available either as separate Adapter (SBV/U) or already pre-assembled to the Valve (BV1B/US)
- Less risk of leaks
- Fully rotatable

Compare the old & new features:

Hep_vO models BV1B/U and BV1B/U1

- Cost savings - One Hep_vO valve can serve 2 x sinks – with our 2 thru 1 solution this takes less time to install!
- Space Saving - No need for air admittance valves or check vents
- Quick installation
- Flexibility – Horizontal or vertical installation
- Frees up storage space in units
- No risk of trap failure due to siphonage, evaporation, movement or freezing
- No risk of foul odors penetrating the coach

Features and Benefits with the ABS Adapter:

- Greater cost savings – Sealants and teflon tape are a thing of the past!
- Quicker and easier installation
- Improved integrity – Makes a more successful outlet connection
- Less chance of leaks or contamination
- Fully rotatable for adjusting orientation, especially in horizontal installation
